¹If repayment was incremental, please enter the most recent repayment date.

American taxpayers are quite interested in knowing how banks have used the money that Treasury has invested under the Capital Purchase Program (CPP) and Community Development Capital Initiative (CDCI). To answer that question, Treasury is seeking responses that describe generally how the CPP/CDCI investment has affected the operation of your business. We understand that once received, the cash associated with TARP funding is indistinguishable from other cash sources, unless the funds were segregated, and therefore it may not be feasible to identify precisely how the CPP/CDCI investment was deployed or how many CPP/CDCI dollars were allocated to each use. Nevertheless, we ask you to provide as much information as you can about how you have used the capital Treasury has provided, and how your uses of that capital have changed over time. Treasury will be pairing this survey with a summary of certain balance sheet and other financial data from your institution's regulatory filings, so to the extent you find it helpful to do so, please feel free to refer to your institution's quarterly call reports to illustrate your answers. This is your opportunity to speak to the taxpayers in your own words, which will be posted on our website.

What specific ways did your institution utilize CPP/CDCI capital? Check all that apply and elaborate as appropriate, especially if the uses have shifted over time. Your responses should reflect actions taken over the past year (or for the portion of the year in which CPP/CDCI funds were outstanding).

Increase lending or reduce lending less than otherwise would have occurred.

To the extent the funds supported increased lending, please describe the major type of loans, if possible (residential mortgage loans, commercial mortgage loans, small business loans, etc.).

CPP ANNUAL USE OF CAPITAL SURVEY - 2010

NAME OF INSTITUTION
(Include Holding Company Where Applicable)

Blue Valley Ban Corp (Holding Company), Bank of Blue Valley (the Bank)

Blue Valley Ban Corp (Holding Company), Bank of Blue Valley (the Bank)

What actions were you able to take that you may not have taken without the capital infusion of CPP/CDCI funds?

Our Company and Bank remain Well Capitalized as a result of the CPP Funds. Without the CPP funds we would still be adequately capitalized. The CPP funds have provided us with the necessary capital cushion and strength to work with our customers to help them through these difficult economic times. The CPP funds have also enabled us to be proactive in resolving credit issues within our loan portfolio as evidenced in Note 3 of our December 31st, 2010 financial statements which shows our Total Past Due loans going from \$41.1 million at 12/31/09 to \$18.1 million at 12/31/10. Our ability to aggressively address our issues and work with challenged borrowers is a direct result of the additional capital strength that was provided to us through the participation in the CPP fund program.
